Executive Summary

A highly motivated Frontend Developer with a Bachelor's degree in Commerce (B.Com) with Computer Application. Passionate about creating intuitive and responsive user interfaces, with a solid foundation in HTML/CSS, JavaScript, Python and React. A quick learner with the ability to adapt to new technologies and coding languages. While a fresher in the industry, I am eager to apply my knowledge and self-taught skills to contribute to dynamic development teams and deliver innovative web solutions.

Projects

Weather App Tools : HTML, CSS, React, API from OpenWeatherMap demo 🔗 <ul style="list-style-type: none">• A weather web app that provides real-time data on temperature, humidity, and wind speed for any location.• Users can view the latitude and longitude coordinates of their chosen location, giving precise and up-to-date weather information in a simple, intuitive interface.	Mar 2024
Google Gemini App Tools : React, HTML, CSS, Javascript, API from Google Studio AI demo 🔗 <ul style="list-style-type: none">• Gemini clone app is a simplified replica of the Google Gemini AI platform, designed for tasks like conversational AI, language understanding, and generating content.• By integrating APIs, it enables users to send queries to a backend AI model (e.g., for text completion, Q&A, or language translation) and receive responses in real-time.	Jun 2024

Technology and Tools

Languages

Python, HTML, CSS, JavaScript

Frameworks

React, Flask (Python), Bootstrap (Style), Node.js (with Express)

Databases

MongoDB (NoSQL), MySQL (relational)

Other Tech & Tools

JWT(authentication), MVC(design-pattern), GitHub (version control), VS Code (code editor)

Education Credential

B.Com with Computer Application CGPA - 6.97/10 GTN Arts College - Dindigul, India	2021 – 2024
